

RUS-Listed
Your Broadband Wireless Equipment Source

Vecima Networks Inc.

VistaMAX®

BWIN™

WaveRider®

For Service Providers it is a great time to try Vecima's broadband wireless equipment. Vecima's equipment is accepted by the US Department of Agriculture's Rural Utilities Service (RUS). Under the program, grants, loans and loan guarantees for broadband equipment and infrastructure are available for rural areas in the United States without sufficient access to high speed broadband service. The goal is to facilitate rural economic development. Vecima's equipment is designed and manufactured in North America and offers three RUS-listed product lines to meet your needs: VistaMAX 3.65 GHz based on WiMAX IEEE 802.16-2004, BWIN 700 MHz (Broadband Wireless Internet Network) based on DOCSIS®, and the WaveRider LMS8000 series based on orthogonal frequency division multiplexing.

Designed and Manufactured in North America
